OPPOSITION TO THIRD TERM IDEA

Representative Slayden introduces Resolution in House.

COMES UP EARLY NEXT WEEK

Document Recites That Precedent Established by Washington and Other Presidents in Retiring From Office After Second Term Has Become, by Universal Concurrence, Part of Our Republican System of Government.

Washington, Feb. 2.—A resolution expressing opposition to the third term idea, introduced by Representative Slayden of Texas, is expected to lead to a dramatic demonstration in the house, apropos of the movement that has been started to nominate Theodore Roosevelt as the Republican presidential candidate this year.

If present plans are carried out the Slayden resolution will be reported early in the coming week and brought to a vote without delay. Just what will be its fate is a matter of conjecture. The Slayden resolution reads as follows:

"Resolved, That in the opinion of this house, the precedent established by Washington and other presidents of the United States in retiring from the presidential office after their second term has become, by universal concurrence, a part of our republican system of government and that any departure from this time honored custom would be unwelcome, unpatriotic and fraught with perils to our free institutions."

Exact Copy of Old Measure.

The resolution quoted is an exact copy of a measure passed by the house Dec. 15, 1875, on motion of Representative William F. Springer of Illinois, a Democrat. At that time President Grant, about to conclude his second term in the White House, was groomed by his friends for renomination. President Grant was willing. There was a lively public discussion of the third term proposition in 1874 and 1875, which finally found expression in the Springer resolution. The house was controlled by the Democrats.

Mr. Springer presented his resolution without giving formal notice, a procedure that was possible, under the rules that then obtained. He moved the previous question on the measure. This was ordered by an overwhelming vote. Mr. Springer then called for a yeas and nays vote on the resolution itself. The resolution expressing it to be the sense of that house that a third term for a president was "fraught with peril to our free institutions" was then passed by a vote of 233 to 18, thirty-eight members not voting.

The Slayden resolution provoked a lively discussion in the house. Many Democrats gave it their approval, although some leaders insisted that its passage by Democratic votes would amount to a public confession that the Democrats feared Colonel Roosevelt's candidacy in the forthcoming campaign.

Slayden Discusses Resolution. In discussing his resolution Representative Slayden said:

"This resolution is not introduced at this time to meet any particular emergency, but it is simply the reflection of views that I have always entertained. I think that until recently there has hardly been any doubt that the overwhelming majority of the citizens of this country are opposed to the election of a president to a third term."

"The same question has been brought up in some form or another quite frequently and debates in the early congresses, as published by Gales & Seaton, show it was generally thought that the examples of Washington and Jefferson had forever settled the question, but it appeared some thirty-five or forty years ago that there was a considerable number of citizens who did not believe that the precedents established by the early presidents were conclusive."

The Slayden resolution was referred to the committee on election of president, vice president and members of congress, of Missouri, a Democrat, is chairman. That it will be reported promptly by that committee is indicated in a statement made by Mr. Rucker.

FILMS MOVE CONSCIENCE

Iowa Man Confesses Perjury After Seeing Picture Show.

Cedar Rapids, Ia., Feb. 2.—Influenced by the sentiment pictured on the film of a moving picture show John Gates of this city made affidavits that he had sworn falsely in a case against Charles Jack of Traver, Ia.

Jack was convicted on Gates' evidence of attempted extortion. Jack was sent to prison two years ago and paroled last October after serving twenty-one months. The men were rivals for the hand of a young woman.

Baden-Powell in Boston.

Boston, Feb. 2.—Lieutenant General Sir Robert Baden-Powell, chief of the Boy Scouts of Great Britain, closed a strenuous day in this city with a banquet at the City club and a lecture at Tremont temple. The early part of the day was devoted to a round of greeting from Boy Scout organizations.

FOES HAVE MORE ATTACKS COMING

Three Political Missiles May Be Thrown at Wilson.

ONE SCHEME IS KEPT SECRET

Writings of New Jersey Governor Are to Be Construed Into a Sentiment of Suspicion or Dislike Regarding One Religious Denomination—Second Attack Will Treat With Friction Between Wilson and the Late Grover Cleveland.

New York, Feb. 2.—Governor Woodrow Wilson, or the friendly propaganda which is directing his presidential politics, is to have other accusations and attacks to meet and overcome, if possible, since the Colonel Harvey incident has not served the purpose for which it was made public.

The violence and persistence of these assaults upon Governor Wilson's candidacy are regarded by able politicians as sufficient proof of the strength of the popular support of Governor Wilson. He is called by these politicians the most conspicuous and possibly the most available of the men of Democratic faith whom the national Democratic convention will be asked to nominate.

But veteran politicians speak of this very prominence as something which contains the gravest danger which Governor Wilson's managers will be compelled to meet.

As soon as this attack upon Governor Wilson has spent its force at least three others are to follow, not in one broadside, but in sequence. There are intimations that either letters or verbal communications or something in the writings of Governor Wilson can be easily construed into a sentiment of suspicion or of dislike respecting the alleged influence which the Roman Catholics of the United States are gaining in politics and in the administration of public affairs. There are at present no details obtainable respecting this contemplated attack upon Governor Wilson.

Then, when this assault has had its day, a second one is to be made, presumably the choice between the two remaining ones being the disclosure of the relations which the late Grover Cleveland had with Governor Wilson, when Wilson was president of Princeton and Cleveland was a trustee of the institution.

Not until after Mr. Cleveland and President Wilson were brought into close official relation at Princeton did friction begin. Probably if the second of these coming attacks is made it will be based upon alleged disclosures of something Mr. Cleveland said or wrote about the president of Princeton, opinions which, according to report, were not very complimentary.

The third of the attacks is, in its nature, kept secret. But that three assaults of this kind are now in contemplation is said by those who should know, and especially by some who recently have been in Washington, to be certain.

REPUBLICAN TARIFF PROGRAM

Senators to Use Steel Bill to Present Their Attitude to Country.

Washington, Feb. 2.—As a result of a conference of Republican senators at the Capitol the Republican view of the tariff situation will be presented to the senate and to the country at large in connection with the house bill revising the iron and steel schedule. The meeting was attended by most of the Republican members of the finance committee and also by some of the other Republican leaders, but none of the insurgent senators were present.

As a first move in carrying out the program will be a meeting of the finance committee. The full committee will be advised of the desire of the Republicans for a general hearing on the iron and steel bill and it is believed Democratic members of the committee will offer no objections.

WILSON ON ORGANIZATION

Governor Declares It Is Co-Operation for Common Purpose.

Richmond, Va., Feb. 2.—Governor Woodrow Wilson of New Jersey delivered an address here on "The Democratic Opportunity." A large part of the audience had expected to hear some reference to the Harvey-Watson-Wilson incident, but the governor did not touch upon it. He was applauded when he declared he was not an insurgent, but an organization man.

"The difference between organization and a machine," he said, "is that organization is the systematic co-operation of men for a common purpose, while a machine is the systematic co-operation of men for a private purpose."

Lawyer to Oppose Cannon. Danville, Ill., Feb. 2.—Frank T. O'Hair of Paris, Edgar county, a lawyer, is announced as a candidate for congress on the Democratic ticket in opposition to former Speaker J. G. Cannon in the Eighteenth district.

MRS. J. A. DIX FIGHTS FIRE

Governor's Wife Leads in Saving Home of Her Niece.

Albany, N. Y., Feb. 2.—Mrs. John A. Dix, wife of the governor of New York, took charge of a fire fight at the home of her niece, Mrs. George W. C. Low, working in smoke while she tore down curtains and draperies that might prove easy fuel for the flames.

Mr. and Mrs. Low had planned to entertain and Mrs. Dix was to have been one of the guests. When someone telephoned her that the Low residence was ablaze she hurried there in an automobile and led the fire fighters.

LOSS AMOUNTS TO OVER ONE MILLION

One Life Probably Lost in Sugar Refinery Blaze.

Halifax, N. S., Feb. 2.—Fire destroyed the Woodside plant of the Acadia Sugar Refining company here, entailing a loss estimated at more than \$1,000,000. One employee is missing and is believed to have been burned to death.

The fire started in a large wooden warehouse on the water front where 10,000 barrels of sugar were stored. The flames made short work of this structure and shot across the railway tracks to the seven-story brick building of the refinery proper. The spread of the blaze in this structure was so rapid that some of the workmen had difficulty in escaping and one, a man named Henneberry, is missing and is believed to have perished.

Besides the refined sugar destroyed more than 25,000 bags of raw sugar were consumed. A number of loaded intercolonial railway cars, on a siding at the refinery, were burned.

ARE LA FOLLETTE DELEGATES

McGovern, Lenroot and Houser to Run at Wisconsin Primaries.

Madison, Wis., Feb. 2.—Governor F. E. McGovern, Congressman I. L. Lenroot and Alvin P. Kietzsch of Milwaukee and Walter L. Houser of Mondovi, campaign manager for Senator La Follette, were selected as delegates at large to the Republican national convention by the executive committee of the La Follette Republican club of Wisconsin. It is said Lieutenant Governor Thomas Morris stepped aside in Houser's favor.

It was the opinion that the corrupt practices act does not limit the amount of money that may be spent by the delegates, but applied to the purposes for which the money is expended.

The delegates selected will have to be endorsed at the primaries.

TURN MICHIGAN TO COLONEL

Newberry, Former Secretary of Navy, Back of Movement.

Detroit, Mich., Feb. 2.—Truman H. Newberry, former secretary of the Navy and chosen by the Republican state committee as temporary chairman of the state convention, which will elect delegates to the Republican national convention, is back of a movement to organize Michigan for former President Roosevelt and send an instructed delegation for him to the Chicago convention. Charles A. Nichols, city clerk and close friend of Newberry, made the announcement. Headquarters will be opened at once, Mr. Nichols said.

Federal Deficit \$22,358,000.

Washington, Feb. 2.—The deficit of the federal treasury for the current fiscal year has risen to \$22,358,000. At the close of January, a year ago, the excess of disbursements over receipts was only \$4,137,000. The treasury gathered up during January \$52,462,000. The month's expenses of the national government, however, reached \$53,422,000, a deficit for the month of \$60,000.

SENATE RULED BY FAR WEST.

Wyoming, Idaho and Utah Dominate Big Committees.

NEW ENGLAND LOSES CONTROL

Change Has Come Since Last Congress. Seniority of Service the Determining Factor—Territorial Delegates, One of Whom Climbs Mountains—Senator Gore's Special Page.

By ARTHUR W. DUNN.

Washington, Feb. 2.—[Special.]—A score of years ago and for a long succeeding period frequent comment was made upon the dominance of New England in matters of legislation on account of the powerful committee places held by senators from those six states. And it was a striking fact, due to the long continuous service of the New England senators.

But the seat of power has moved west. Three intermountain states, small in population, as each has but one representative in the senate, now have more power in the senate than any half dozen states in the country. They are Wyoming, Idaho and Utah. The "big four" committees of the senate are finance, appropriations, foreign relations and judiciary. Wyoming is on three of these committees, Idaho on three and Utah on all four.

Other Positions of Power. These three states have the chairmanships of appropriations, judiciary, public lands, public buildings and grounds, education and labor and manufactures. They are represented on rules, military affairs, agriculture, privileges and elections, Indian affairs and in several instances have two or more men on these committees.

It is the length of service that has much to do with securing good committee places, but in the case of the three far western states named it must be acknowledged that they have very able men in the senate, men who are also very active in all business pertaining to the senate, which means power and influence.

Without Votes Though In Congress.

Five of the 391 members of the house are not entitled to a vote on any proposition. These are the delegates from the territories, represented as follows: Alaska, James Wickersham; Hawaii, J. Kuhnlo Kalaniana'ole, and the three resident commissioners—Phillipine Islands, Benito Legarda and Manuel L. Quezon; Porto Rico, Luis M. Rivera.

Arizona as a territory is represented by Ralph H. Cameron, but as it will soon be the state of Arizona it cannot properly be counted as being without a vote in the present congress. Delegates may introduce bills, make speeches, move the passage of bills, make points of order, have the franking privilege, have an office in the house building and regularly draw the full salary and allowances of members, but they cannot cast a vote or make a motion to reconsider a vote which has been taken.

An Alaska Mountain Climber. Judge James Wickersham, delegate to congress from Alaska, though born and educated in Illinois, a prairie state, has a great love for mountain climbing, acquired through his long residence in the far north. He was practicing law in Tacoma when he was made district judge for Alaska by President McKinley.

In intervals of court work in 1903 he organized an expedition, consisting of five men and two mules named Mark and Hanna, and made the first actual attempt to scale Mount McKinley. Provisions gave out after a week's work, during which the party reached an altitude of 10,000 feet, had thrilling experiences with glaciers and crevasses and made many important topographical maps, later adopted by the geological survey.

Senator Gore's Eyes. By resolution the senate has provided Senator Gore, the blind senator from Oklahoma, with a personal attendant, whose duty it shall be to guide his footsteps as he goes about the building and into his seat. Mrs. Gore has been eyes for the senator heretofore, but the rules do not permit her to enter the chamber, and Senator Gore has sometimes had difficulty in locating his seat, though he has a wonderful faculty for finding his way unaided.

This is the second instance in which the senate has taken a similar action. It provided Senator Zeb B. Vance of North Carolina with an attendant when he was going blind, his son being placed on the payroll in that capacity.

The "Biggest" Man.

The election of Representative Ollie James of Kentucky to the senate will interfere with an intimacy that has existed between him and Representative Hefflin of Alabama ever since the two came to the house together in the Fifty-eighth congress. When the news of Mr. James' senatorial election reached Washington Mr. Hefflin was one of the first men to congratulate him.

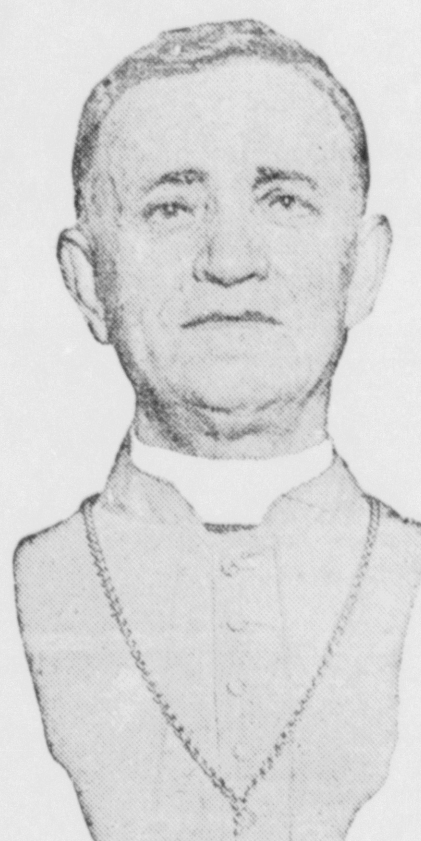

"You can take it from me," he said to a group of fellow members, "this newly elected senator will be the biggest man in the whole senatorial works, and that is not because he is head and shoulders above them physically either. I've taught him for a dozen years, and he's my prize pupil."

Man and Wife Burned to Death.

Jackson, Mich., Feb. 2.—William Smith and wife were burned to death when their home was destroyed by fire. The cause of the fire is unknown.

BONZANO IS PAPAL DELEGATE

Rector of College of Propaganda Succeeds Falconio in Washington.

Washington, Feb. 2.—Mgr. Giovanni Bonzano, now rector of the congregation of the propaganda at Rome, has been named as papal delegate to the United States, succeeding Diomedea Falconio, recently elevated to the office of cardinal. Official dispatches announcing Mgr. Bonzano's appointment were received at the papal legation.

BRANDEIS DECLARES NATION FACES CRISIS

Boston Attorney Begins Speech-making Tour of Nebraska.

Fremont, Neb., Feb. 2.—Louis D. Brandeis, the Boston attorney, launched his speechmaking tour in Nebraska at the Larson theater, where he advocated the policies of Senator La Follette before a large crowd. Mr. Brandeis devoted his speech mostly to decrying the trusts.

While the meeting was advertised as a La Follette rally the reception of Mr. Brandeis in Fremont had the flavor of a nonpartisan affair. A dozen prominent Republicans and Democrats dined with him at a Fremont hotel at noon. He was met here by J. J. McCarthy of Ponca, president of the La Follette league of Nebraska, and F. P. Corrick of Lincoln, secretary.

In his speech Mr. Brandeis declared that the country faces a crisis equalled in seriousness only twice in its history, once in 1776 and again in 1861, when bloody wars were precipitated. To avoid similar consequences now the American people must think and act.

After the speech plans were laid for the district campaign. Resolutions were adopted endorsing La Follette for president and pledging support. Representative Norris of the Fifth district was endorsed for senator and recognized as the "ideal progressive legislator." The policies of Roosevelt were approved.

The delegates were pledged to abide by primary preferences.

LESS MONEY SENT ABROAD

Foreign Order Business Hurt by Postal Savings Banks.

Washington, Feb. 2.—International money order business in New York city since the establishment of postal savings banks showed a decrease of \$6,524,479, as compared with the corresponding period of last year. Postmaster General Hitchcock takes these figures to indicate that foreign born residents now are depositing their surplus money in postal banks instead of sending it abroad.

New York does 90 per cent of the international money order business of the country and during December last the business decreased nearly \$3,000,000.

Serious Complication.

BURNS OPERATIVE ON STATE

Tells of Trapping Wilkins in Lorimer Election Case.

Washington, Feb. 2.—How the photograph was used to procure an alleged admission from Charles McGowan, the Hines-Lorimer witness, that he had "juried" himself when he swore he did not hear C. F. Wiehe tell of a Lorimer election fund, was explained to the senate Lorimer committee by Detective A. C. Bailey, a Burns operative. Bailey took the stand after the fiery cross-examination of Detective William J. Burns.

For nearly two hours Bailey read from "notes" made from day to day of remarks McGowan was alleged to have made to Bailey, posing as a claim adjuster of the American Bridge company. These remarks were alleged to have been made principally on a hunting trip in Canada. On one occasion the detective said McGowan told him he had written to Wiehe that he "had to come across." He said McGowan told him he asked for only \$5,000.

CHINAMAN HELD FOR MURDER

American Lad Slain in Nightly Gang Fight in Frisco.

San Francisco, Feb. 2.—A nightly gang fight between American boys and Chinese lads culminated fatally when James Kane, a fifteen-year-old boy, was shot and killed. Wong Shee, a Chinese storekeeper, twenty-three years old, was arrested and charged with his murder. Kane's body with a bullet hole in the forehead, was found in the yard of the Oriental school.

It was learned that it had been a regular custom for the handful of Chinese and American boys to meet on the grounds of the Oriental school, which is on the edge of the Chinese quarter, and do battle.

SNEED WITNESS IS DEAD

Tells Wife Before Expiring That He Was "Doped."

Fort Worth, Tex., Feb. 2.—Edward Throckmorton, principal state witness in the trial of J. B. Sneed, charged with the murder of Captain A. G. Boyce, is dead.

"Anna, I've been doped," he said, addressing his wife, just before he died.

Throckmorton, son of a former governor of Texas, became suddenly and mysteriously ill Tuesday night. He had been seen that day in company with two strangers here said to have been detectives connected with the case. The grand jury is investigating.

Clarence Darrow Arraigned.

Los Angeles, Feb. 2.—Clarence S. Darrow, former chief counsel for the McNamara brothers, was arraigned before Presiding Judge Hutton of the superior court on the two indictments charging him with jury bribery during the dynamite trial. Judge Hutton designated Saturday as the date for the entering of pleas to both indictments.

Four on Lost Lake Tug.

Racine, Wis., Feb. 2.—Fears are entertained for the safety of the fishing tug Emma Block, which left port on Wednesday in search of nets twenty miles off port. Nothing has been seen or heard of the craft since, although other tugs have been out searching. Captain Charles Hytyle, his son and two other men are on board.

Commerce Commission to Prosecute Express Companies.

FOR OVERCHARGING SHIPPERS

Commissioner Lane at Hearing intimates Law Is Being Violated and That Steps Will Be Taken to Bring the Offenders to Justice—Says Agents of the Companies Do Not Understand Tariffs and Regulations.

Washington, Feb. 2.—Prosecution of express companies for overcharging shippers on the transportation of their goods was indicated by Commissioner Lane at the express rate hearing to be the intention of the interstate commerce commission.

W. A. Ryan, one of the investigators for the commission, presented in tabulated form the examination of one month's business of the Adams Express company, showing that \$67,000 in overcharges had been turned in to the company's treasury.

T. B. Harrison, counsel for the company, explained what are known as "overpayments," and asserted that he would be able to show that not more than 20 per cent of the \$67,000 actually remained in the company's treasury. He added that positive instructions were given by the company to all its representatives to make refunds on all discoverable overcharges.

"Well," said Commissioner Lane, "it is conclusively established that the agents of the companies themselves do not understand the tariffs and regulations of the companies. By an examination of the business of the companies for one day we find more than 3,000 overcharges. Now, then, we propose to prosecute the companies for making these overcharges. They are clearly violations of the law."

Mr. Ryan presented comparative tables of the operations of express companies in Great Britain, France and Germany and those of the United States. They showed, generally, that for similar service, weights and distances, the foreign rates were considerably lower than the domestic rates.

Representatives of the companies pointed out that the express business of the United States is carried either on fast passenger trains or on special express trains, the matter of speed and expedition being given greater consideration in America than in Europe.

The testimony and figures thus far presented by the commission's investigators tend to indicate a belief on their part that the companies should adopt a flat rate, applicable to various zones to be established either voluntarily by the companies or by order of the interstate commerce commission.

GOVERNMENT FACES CRISIS

Mexican Rebellion Proving to Be Formidable Menace.

Mexico City, Feb. 2.—It is the general belief here that the Madero government faces a crisis. The president and his cabinet now admit that the rebellion, headed by Emiliano Zapata, has grown to such proportions as to make it the most formidable menace yet faced by the present government. The president was not willing to admit that the mutiny of troops at Juarez was directly connected with the Zapatista revolution and it was agreed that Pascual Orozco and 400 men whom he has ordered to take from Chihuahua to Juarez would be sufficient to restore order at that point.

El Paso, Tex., Feb. 2.—Colonel Estrada, deputy military commander of Juarez, received advices from Governor Gonzalez that an agreement had been reached whereby the rebels would return control of the city to the federal government.

NOTED RAILWAY MAN DEAD

Edwin Hawley a Victim of Nervous Indigestion.

New York, Feb. 2.—Edwin Hawley, chairman of the Minneapolis and St. Louis railroad and one of the leading railroad magnates in this country, died at his home here after an illness of several weeks.

Mr. Hawley had been a sufferer from nervous indigestion for some time and for the last few weeks had been confined to his home.

Among the companies of which Mr. Hawley was a director were the Colorado and Southern railway, Colorado Fuel and Iron company, the Evansville and Terre Haute railway, the Minneapolis and St. Louis, the Iowa Central and the Hocking Valley railway.

DIES FOR LOVE OF HIS WIFE

After Financial Reverses Prospector Kills Himself.

Deadwood, S. D., Feb. 2.—Leaving a note to his wife in which he declared that since he was unable to live for her he must die for love of her, Charles W. Fuller, an old time prospector, aged fifty years, killed himself with a rifle at Keystone, a mining camp in the Southern Hills. He died a cord to his toe and the trigger and then aimed the gun. Financial reverses by which he lost a fortune are believed to be the cause.

LIBRARY BOARD HAS A MEETING

Special Committee Appointed to Attend Water & Light Board Meeting to get Rate on Current

LIBRARIAN'S REPORT IS READ

Miss Clara F. Baldwin, Secretary Minnesota Public Library Commission makes Suggestions

The regular meeting of the library board was called to order by Mrs. C. M. Patek. The minutes of the previous meeting were read and approved. The following bills were allowed: For spring water, \$14.95; Balance on books, \$5.09; Fuel, \$107.87; Light fixtures, \$3.70. A bill of \$8.30 was handed to the building committee for correction.

The bill for repairing the roof, \$12, was not allowed as the roof is still leaking. The bills for electric light and water were not allowed on account of the shortage of funds.

A special committee was appointed to attend a meeting of the water and light board and ask for rates on current. The building committee was instructed to purchase more hard coal.

The librarian gave the following as her summary for December, 1911: No. vols. fiction loaned adults 534 Vols. non-fiction loaned adults 59

Total books loaned adults... 593 Vols. fiction loaned children... 335 Vols. non-fiction loaned children 226

Total books loaned children 561 Total books loaned for home use 1154 Magazines loaned for home use 44 Cards issued to new borrowers a. 15 Cards issued to new borrowers, c 17

Total new borrowers 32 Readers in reading room, a... 169 Readers in reading rooms, c... 149

Total readers 318 Books repaired 178

In her communication to the secretary, Miss Clara F. Baldwin, the secretary of the Minnesota public library commission, enclosed a table giving some information about public libraries in towns of about the size of Brainerd and a number of smaller towns which have about the same appropriation for library purposes.

From this table it is evident that all towns approximately the size of Brainerd are levying more for library purposes than Brainerd and many towns of much smaller population are levying as much if not larger amounts.

It also appears that most of these towns are raising more than the actual requirements of the Carnegie gift, which seems to prove that they have not found the required appropriation sufficient to carry on their work adequately.

She recommends further that some of the facts in her communication be called to the attention of the council and that a budget for the year of 1912 be prepared by the library board which would provide for adequate service and increased book purchases.

WELCOME TO PASTOR

Congregation Entertains Rev. M. L. Hostager Who Rescinds His Resignation and Will Stay

At a meeting of the congregation of the Seventh Street Norwegian Lutheran church Rev. M. L. Hostager the popular pastor, rescinded his resignation and will remain with the church instead of doing organization work for the Anti-Saloon league.

It was made a scene of rejoicing and many expressed themselves as being glad that Rev. Hostager had decided to remain in Brainerd. Mrs. A. F. Sorenson read the following original poem conveying the welcome to the pastor:

We bid you welcome, welcome,
Dear pastor of our choice;
Both you and yours we welcome
With heart and hand and voice.
The fathers and the mothers,
Young men and maidens, too,
And e'en the little children,
Are here to welcome you.
Tis thus we bid you welcome
Dear pastor of our choice
Both you and yours we welcome
With heart and hand and voice.

We bid you welcome, welcome,
To these dear hallowed courts
This place, so lovely and so blest,
To which our God resorts.
Here may the Father grant you
Faction, and power divine,
And give you souls, which in your crown
As brilliant stars will shine.

We bid you welcome, welcome,
To homes and firesides bright,
A cordial welcome to each home
We bring to you tonight.
Our open doors shall ever
Their welcome wide extend,
And in our hearts for you and yours,
Is welcome without end.
Tis thus we bid you welcome,
Dear pastor of our choice
Both you and yours we welcome
With heart and hand and voice.

We bid you welcome, welcome,
Oh! may each heart be true,
And may in Christ, our mutual love
Be ever fresh and new!
A blessed, sweet communion,
A fellowship divine;
A link that naught can ever part
Between our hearts and thine

We bid you welcome, welcome,
God keep you from all ill,
And give you dauntless courage
To do his holy will.
Now, with our joyous welcome
We breathe this earnest prayer,
Lord, keep us all—shepherd and flock
In thine own loving care.

And when we reach the "home land"
Blest land, where heartaches cease
Dear Savior, bid us "welcome"
To thine eternal peace

A splendid luncheon was served by the ladies of the congregation and all enjoyed a pleasant evening listening to a program of literary and musical numbers, all contributing to make it an event in the annals of that church.

Gunion-Ascher

The marriage of Charles M. Gunion and Margaret Electy Ascher, took place last evening at the residence of Mr. and Mrs. E. Culbertson, 724 Quince near 8th street, in the presence of a large circle of friends of the contracting parties.

The bride was assisted by Estelle Culbertson and the groom by his brother, Henry Gunion, of Montevideo, Minnesota.

The ring service of the Methodist Episcopal church was read by the Rev. Charles Fox Davis, with Mr. E. Culbertson furnishing the music of the occasion.

After a pleasing ceremony, a light menu was served, and the guests spent a social time together.

Several out of town guests were on hand to witness the affair. The couple will make their home in Brainerd.

"THE IRON TRADE REVIEW"

Notes of Interest From This Cleveland Publication Devoted to the Iron Trade

The following excerpts are taken from The Iron Trade Review published at Cleveland, Ohio:

The Northern Pacific railway has closed a contract for 36,000 tons of rails of which 13,000 went to the Illinois Steel Co., 10,000 to the Colorado and the balance was divided among the Lackawanna, Bethlehem and Pennsylvania Fuel & Iron Co. steel companies. The Great Northern order, also 36,000 as recently reported, was divided in practically an identical manner.

The United States Steel corporation has reported unfilled orders as of December 31, 5,084,761, an increase of 942,806 tons over the previous month. This is the largest monthly increase in tonnage ever shown by the Corporation.

Edward Hickey, of Ishpeming, Mich., the oldest employee of the U. S. Steel Corporation, has been pensioned at the age of 70 years. He has worked 47 years for the company, the most of that time as foreman.

While in Pittsburgh President Farrell of the United States Steel Corporation said: "Business conditions continue promising and we are looking forward to more active operations in the steel industry."

Commenting upon an interview with him, which appeared in the Daily Iron Trade Review some days ago, George H. Crosby, of Duluth, writes as follows:

"There are no 40-acre tracts on the Cuyuna range, that I know of, which have shown up more than 7,000,000 tons of merchantable iron ore. Most of the forties do not carry more than 3,000,000 to 4,000,000 tons. The iron contents average from 55 per cent to 56 per cent and there is very little of the ore that is Bessemer. There is no ore on the range that runs as low as 0.07. A great proportion of it is non-Bessemer. The structure of the ore is coarse-grained and lumpy, very favorable for furnace practice.

"It is true that there are five shafts being sunk on the range at the present time and a number of other shafts in prospect for the coming year.

"The only mine which has shipped up to this time is the Kennedy, and it shipped 132,000 tons of ore in 1911. The other mines which are to ship in 1912 are the Thompson, owned by the Inland Steel Co., the Armour No. 1 and No. 2, owned by the Rogers, Brown Ore Co., and the Ironquois Iron Co.

"I do expect the range to ship 3,000,000 tons per annum within a very short space of time, say within the next four or five years."

Max Toltz, consulting engineer of St. Paul, is the designer of the world's largest ore docks, recently constructed at Superior, Wis., for the Great Northern railway, which have already achieved an enviable record in loading, 9,500 tons of ore being loaded into a single vessel in 25 minutes.

Heavy specifying against contracts, increased furnace and mill activities, especially on the part of the Steel Corporation, and a fair amount of new business furnish strong indications that, after the lull of the last few weeks, the iron trade is preparing to go forward at a very satisfactory rate throughout the first half of the year.

In an editorial the Iron Trade Review asks that the iron and steel schedules be let alone by congress and that the sentiment of the country is not in favor of revision, which would tend to further cripple an industry which had much to contend with during recent years.

THE THEATRE BEAUTIFUL

Continuous Performance 7:30 to 10:00. Admission 5 and 10c Special Matinee Saturday at 3:00 P. M.

EXTRA SPECIAL PROGRAM TONIGHT

"The Passing"

This is positively one of the best pictures and the only one of its kind ever made. It is different. To reveal the story would be to spoil the picture. Come and see it for yourself.

"In the Northern Woods"

This is a very interesting drama of the life of the lumberjack. The splendid winter scenes in this picture supply a fine background for a perfectly acted drama.

"Just too Late"

This comedy contains a series of highly humorous mishaps. This is another of the Nestor's famous talking pictures.

"Mutt & Jeff and Italian Strikers"

Here are our old friends in a new comedy. Better than ever this time. See the exciting handcar race.

"At the time I received your letter we were expecting baby's death daily. She had whooping cough, measles and was teething at the same time. I believe that if she had been anything but a Mellin's Food baby, she would have died. Some days we succeeded in getting her to take one ounce of food and some days three ounces for about two weeks, but not a day passed without her getting some food, and by this means we succeeded in keeping her in life, until she was strong enough to take more. Now she is rosy, fat and walking."

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, and you will understand why Dyspeptic trouble of all kinds must go, and why Diapiesin always relieves sour, out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapiesin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis, or any other stomach misery.

TO BUILD \$20,000 CATHOLIC CHURCH

Handsome Brick Church, 50 by 125 Feet in Size, to be Built in Crosby

GEO. H. CROSBY GAVE TWO LOTS

The Church Trustees are Rev. Father Quillien, C. A. Lewis and A. K. Friedrich

Crosby, Minn., February 1.—Crosby Catholics will soon commence the erection of a \$20,000 church on the corner of Second street north and Third avenue west. The structure will be of pressed brick and will measure about 50 by 125 feet in size.

George H. Crosby donated two lots to the church and the church bought one. The trustees of the parish are Rev. Father Quillien, C. A. Lewis and A. K. Friedrich. Work will be immediately commenced on a basement and a temporary roof placed in position and this part will be used for church purposes until sufficient money is raised to complete the edifice. \$4,000 has been raised to build the basement. The church, according to those who have seen the plans, promises to be one of the finest structures on the entire Cuyuna iron range and will, in a way, be a monument to the energy, activity and loyalty of the Crosby parish and its popular priest, Rev. Father Quillien, who is instrumental in urging them to take this step.

E. G. Ingalls, now connected with the Crosby Courier, was in Deerwood on business for his paper.

The Rangers, a club of young society people, will give their second dance of a series on Friday evening, February 2.

STOMACH PUT IN ORDER

No Indigestion, Gas, Sourness, Heartburn or Dyspepsia 5 Minutes After Taking Diapiesin

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapiesin costs only 50 cents and will thoroughly cure your out-of-order stomach and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

MUSIC AND DRAMA

At the Grand

The offering at the Grand tonight and tomorrow promises to be very good. Another drama in the same class as "Dr. Jekyll and Mr. Hyde" will be shown. This great picture is "The Passing" and is different from the ordinary.

Besides this there will be another equally interesting drama and two comedies of the talking type. Mutt and Jeff are here again in their very latest comedy and always make a hit. A special matinee for the ladies and children will be given Saturday at 3 P. M.

"Folks From Vermont"

The title of the play is suggestive of its character and composition. It is surely a rural comedy drama, and deals principally with the life of an eastern farmer from the hills of Vermont. Uncle Joshua is not a rube, but one of those up-to-date tillers of the soil who together with his daughter Rosabelle Higgins, a charming young lass, go to make up the two principal characters in a pretty and wholesome comedy. The play is both humorous and pathetic, combining many mirth provoking and irresistibly funny situations, with scenes and climaxes of the very best. The cast is not a large one, six cleverly drawn characters of Vermont type are required to give the presentation. Throughout the entire production is an air of naturalness, that will almost cause one to forget it is a play and feel the scenes are a reality. It is a play of humor and pathos, and keeps the audience alternating between laughter and tears. The characters are all well drawn, being all typical folks from Vermont. Will be seen at the opera house tonight, Feb. 2.

THE "CONVICT'S DAUGHTER"

Home Talent Play Presented at Cuyuna Last Friday is Witnessed by Deerwood People

A CREDITABLE PERFORMANCE

Play Will be Repeated February 2 and Also Presented Later at Deerwood and Aitkin

Cuyuna, Minn., February 1.—The home talent play, "The Convict's Daughter," presented at the Ideal theatre at Cuyuna on January 26th, scored a big hit and delighted a large audience of which many were Deerwood people who made a special trip to see the performance presented by ambitious members of the Cuyuna Dramatic club.

The show lasted two and one-half hours and was a four act play, the first act showing the garden of Col. Lee's southern home; the second the drawing room; the third Jerry's hut and the last act a repetition of the scenery of act two.

W. K. James, the village marshal, assumed the part of Gerald Weston and Robert Graham. A. A. Harder was the southern banker, Cal. Mathew Lee. R. B. Robinson was his nephew, James Blackburn. E. R. Ekman was Jack Worthington, his rival. L. Kast was the officer. Mrs. J. H. Packard was the Mrs. Lee and Sadie France, the convict's daughter, was the role assumed by Miss Lillie Kast.

In order to give the miners of the night shift of the Kennedy mine a chance to see it, the play will be repeated Friday evening, February 2. "The Convict's Daughter" will later be presented at Deerwood and at Aitkin and judging from the patronage accorded it at Cuyuna it will be successful in the last mentioned towns.

The Cuyuna Mercantile Co. is closing out its large stock and offering some rare bargains. A free lunch is served during the sale.

ADAM'S MINE IS DOWN 50 FEET

Takes a Drop of Seven Feet Through Gravel in One Plunge Without Injury to Cement

ANOTHER MINE TO GO IN NEAR IT

Large Party of Deerwood People Take a Trip to Cuyuna and See the Home Talent Play

Deerwood, Minn., February 1.—The Adams mine, about two and one-half miles south of Deerwood, is now down a depth of 50 feet. This depth is indicative of the good progress being made in the sinking of the cement shaft. A seam of gravel was struck the other day and the huge tube of cement shot down seven feet in one plunge and only went about a quarter of an inch out of plumb. This drop is a record on the Cuyuna range. At the Meacham mine on one occasion Supt. R. Jackson was going through gravel and his shaft dropped six feet but went 33 inches out of plumb and it took over a month to jack the tube back to the perpendicular. These rapid gains in sinking are all right provided every shaft behaves as nicely as did the Adams mine shaft.

It is reliably reported that another mine will shortly be opened near the Adams mine, either in section 20 or 21, township 46, range 28. This is land that is reported to be owned by the Northwestern Improvement Co.

Included in the party of Deerwood people which attended the performance of "The Convict's Daughter" at Cuyuna were Mrs. Charles G. Osterlund, Mrs. Albert Olson, Miss Marcella Keating, Miss Agnes I. Lamb, Miss Maud G. Hage, Miss Margaret Torgerson, Miss Esther Theorin, Miss Theorin and the Messrs. Julius Hage, Frank Oberg, Gust Franson, Gust Oberg, William Seafeld, John Olson, Tom Hammond and Albert Olson. A four horse team conveyed the ladies and gentlemen and all enjoyed the play as well as the supper which was served at one of the leading hotels.

Mr. and Mrs. E. O. Peterson have gone to Spooner, Wis. Mr. Peterson and his father formerly conducted the meat market at Deerwood. This leaves the Deerwood market vacant and C. J. Rathvon is anxious to find a tenant to take up the business.

Dr. F. W. S. Raifer has returned from a week's visit at Cloquet.

The intermediate class in school has a short vacation at present for the teacher is sick.

T. P. Corey, president of the Helmer Exploration Co., O. I. Green, one of the officials of the company, E. A. Lamb, another officer and William Seafeld, the superintendent, visited many of their properties on Wednesday.

John Helmer, of Duluth, is on the range examining the various holdings in which he is interested.

Miss Kate Barker, who is the manager of the Hage branch store at McGregor, was a visitor in Deerwood on Tuesday.

Isaac Hazlett, F. B. Coon and J. J. Meyers visited the First National bank of Deerwood during the week. They are stockholders of this institution.

Charles Wright, Jr., is erecting a frame building across the street from the First National bank to be used as his jewelry store.

Rev. Stewart and wife have charge of the Methodist church revival meetings and are meeting with good success in their work of evangelization.

Paul M. Hale went to St. Paul Tuesday.

Wilson Bradley has returned from a business trip to Duluth taken in the interests of the Oreland Townsite Company.

Frank Oberg, Gust Oberg, Julius Hage, Tom Hammond, Tom DeRoche, Gust Franson, William Seafeld and Hugo Barthelme enjoyed the roller skating in Ironton this week. It was the first time some of the boys had their skates on and the gyrations executed astonished the Ironton people.

The Presbyterian Ladies Aid society met with Mrs. M. Lee on Wednesday.

E. A. Rogers, of Minneapolis, is in the village.

On Thursday evening Mr. and Mrs. Robert Archibald will celebrate their 25th wedding anniversary and they will entertain at an elaborate dinner.

The Methodist Ladies Aid society met with Mrs. R. B. Coffin Thursday.

A lively interest is being taken in the new townsite of Oreland. Inquiries are frequent. The opening sale of lots is scheduled for Monday, February 5. Including business lots there will also be a sale of residence lots, those on Second avenue east averaging 50 foot lots. As soon as weather conditions permit in spring the townsite company will build cement sidewalks and put in the proper curbing.

Charles Durham, Lovington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear thro' on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." For sale by all druggists. mwf
